

Pope John is excited to offer two summer math enrichment courses to help you get prepared for 2022-2023!

Students who are interested must complete the attached registration form and submit it to Pope John XXIII High School by Monday, June 27.

Algebra I Preview

3 week course

July 11 - July 29

9:00 - 10:00 AM

Instructor: Mr. Giovannone josephgiovannone@popejohn.org

The course focuses on easing the transition from pre-algebra to algebra I and focuses on the basic skills required for the study of algebra. Students who are looking for additional reinforcement of these algebraic concepts should consider this course.

\$410 - non Pope John student rate

\$330 - Discounted rate for current Pope John students

Algebra II Preview

3 week course

July 11 - July 29

10:00 -11:00 AM

Instructor: Mr. Giovannone josephgiovannone@popejohn.org

This course reviews key concepts from algebra I that are necessary for a strong foundation in algebra II. Students looking to prepare for success in algebra II next year should consider this course.

\$410 - non Pope John student rate

\$330 - Discounted rate for current Pope John students
